2 Rand repair (\$30 per pair) - done in conjunction with a resole!

A rand repair is the replacement of your toe cap because it has a hole or is wearing thin. If you are unsure if your rands need replacing, we can assess your rands when your shoes come in. Rands will only be replaced if deemed necessary.

3 Added Sensitivity (\$5) - To increase sensitivity, we can thin the middle of your new resole (from step 1). This won't affect your new edges.

4 Postage (\$12) - Once completed, your shoes will be sent back to your *return address. Australia Post will send you a tracking number once your shoes have been lodged

Your order summary:
